

Valcom Paging Systems

Valcom's Overhead Loudspeaker Paging is essential to every Business. Companies can improve productivity, personnel efficiency and increase safety and security. Instantly communicate with everyone or an isolated area/group without disrupting other areas. "Group Call" allows you to page any combination of two or more individual zones together. With workplace safety being of great concern to businesses, Valcom's Paging Systems can also provide emergency notification through Valcom speakers, horns, visual signs and computer pop-ups.

Some of the features that can be included in the Valcom Paging System:

- Find people when not at their desk
- Single or Multizone, All Call & Group Call
- Reduce Call Back Times
- Increase Safety & Security
- Notify everyone for quick evacuation
- Talkback Paging
- Override Access
- Door Entry/Security Management
- Background Music

INTERCOMS

Valcom has provided state of the art intercom systems for over 35 years. Their offerings include systems with a single zone up to systems with tens of thousands of zones. These systems are offered as analog, hybrid or full IP to meet your requirements now and well into the future.

IP Emergency Help Points

Emergency Communication is vital in areas such as parking garages, parking lots, common areas and walkways. Summon help with a push of a button for improved safety and security. Calls can be directed to the most appropriate point for optimum response time.

Some features of the Valcom Emergency Help Points are:

- SIP, IP and Analog station line compatible
- Emergency push button access
- Blue strobes
- Vandal resistant
- Location identification
- InformaCast version available
- Doubles as mass notification audio point
- Retrofit units available for most existing structures
- Stanchion / Pedestal / Wall Mount
